Is it safe for me to take part in the Run 60 challenge if I have concerns about fatigue, joint pain, or needing the toilet urgently?

We understand that exercise can raise concerns, especially around fatigue, joint health, and the urgency to use the toilet. While many find physical activity helpful, it's important to listen to your body and not push yourself if something doesn't feel right.

We can't advise on individual suitability, so if you're unsure, we recommend speaking to your IBD team or healthcare professional. For general information about staying active with IBD, fatigue, and joint issues, you can find helpful resources on our website:

Does my daily/weekly run/workout count?

This is your challenge, and we encourage you to do it your way - some people will do it as part of their usual workout, and others might choose to add this in addition. The important thing is that you're doing something that challenges you. This will vary from person to person, so tailor the challenge however you like. It should be tough, but doable. You should feel satisfied when you finish it!

Someone who is pregnant and wants to know if they can still take part in the challenge

Congratulations! We absolutely welcome everyone to take part, and we encourage you to adapt the challenge according to your needs. We do ask that you consult with your doctor or midwife before taking part to ensure that this challenge is suitable for both you and your baby. Please remember that you're more than welcome to adapt the miles if needed, too.

Yes! Remember, this is your challenge and you can complete it however suits you! If you are struggling to reach your target, friends and family might like to help you get there, or you could choose to extend your challenge a little.
